Economic Perspectives on Peru and the Region

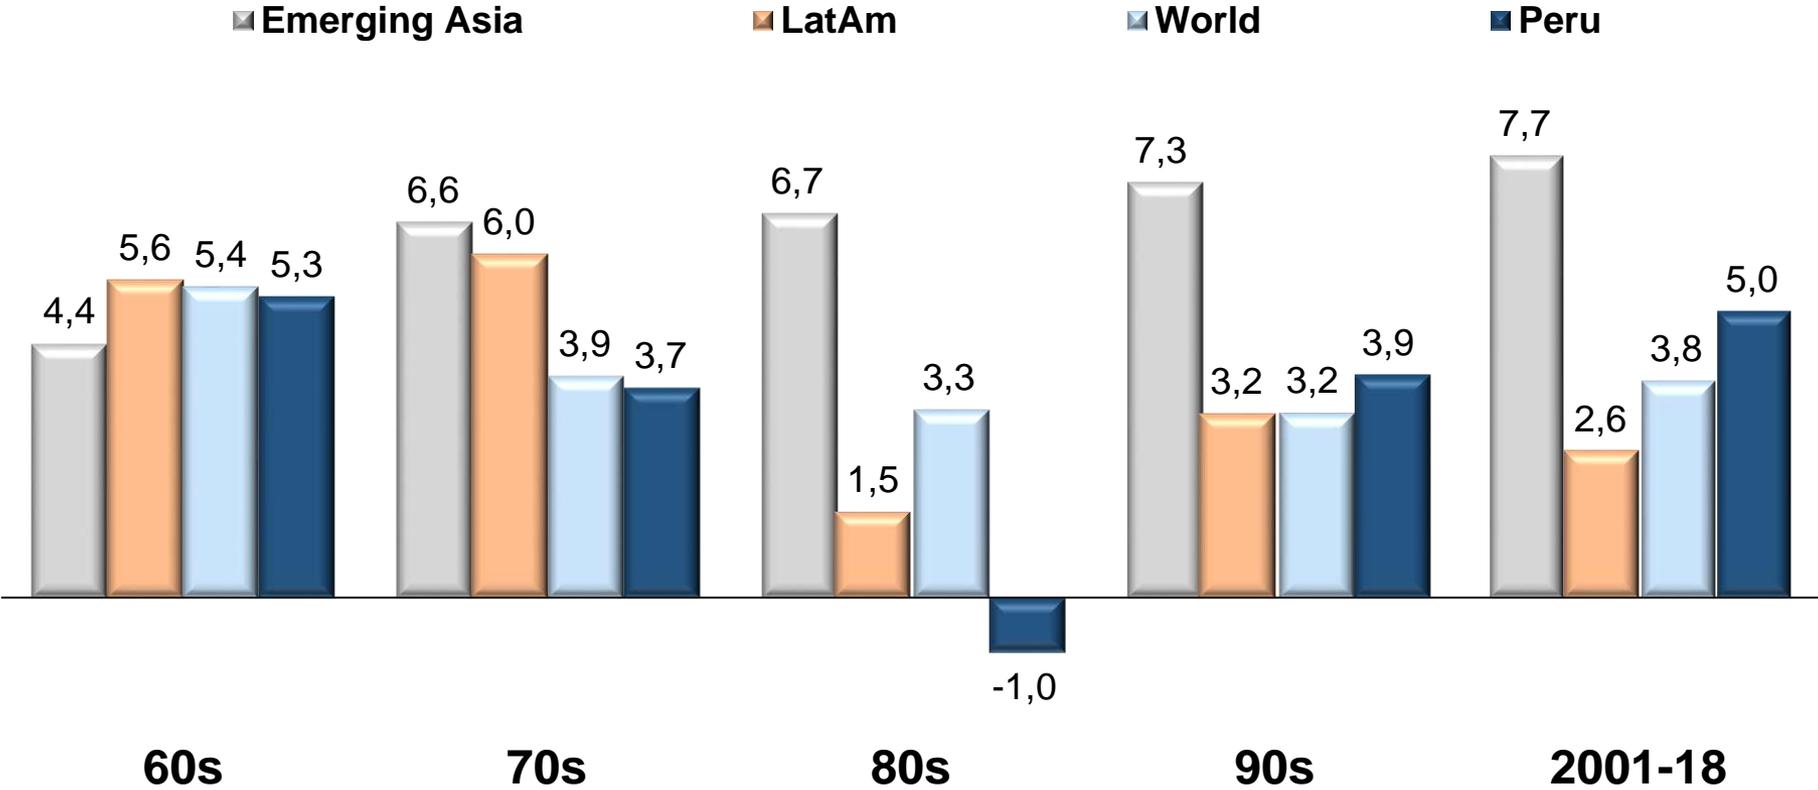

Julio Velarde
President
Central Bank of Peru

December 6, 2018

Since the 90s, Peru's growth rate was higher than the regional and world average.

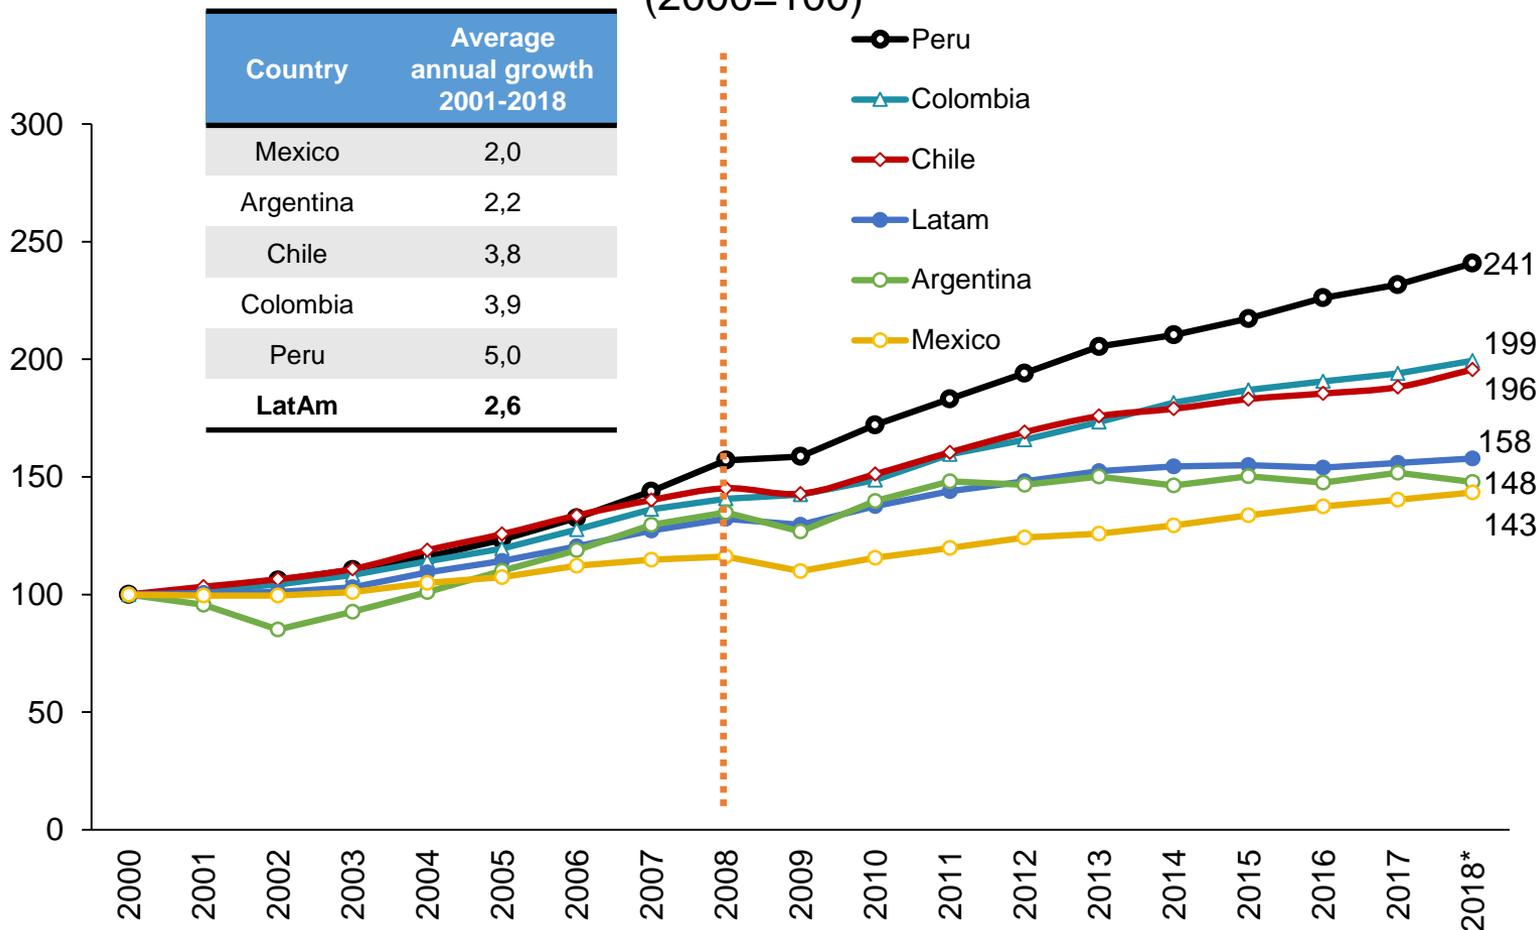

Average GDP growth by decades

* Emerging Asia for 60s and 70s only considers Emerging East Asia & Pacific.
Source: World Bank (for 60s and 70s), WEO (80s, 90s and 2001-18) and BCRP–Inflation Report (Peru).

Since 2008, Peru GDP growth rate has been leading the region.

Latin America and the Caribbean: real GDP index (2000=100)

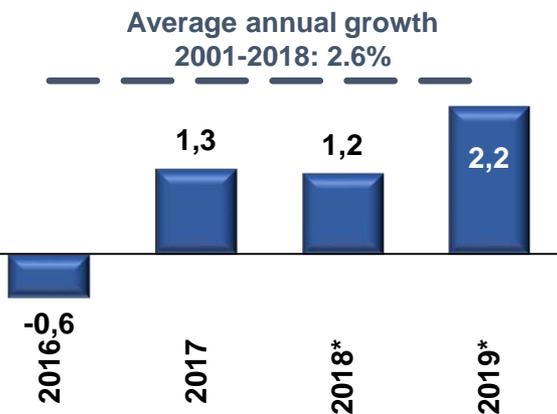

*Forecast.

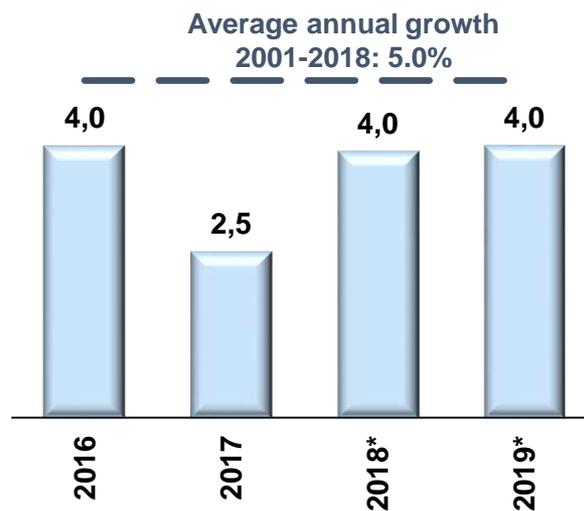

Source: WEO and BCRP–Inflation Report (Peru).

In 2018 and 2019, Peru's growth will be among the highest in the region.

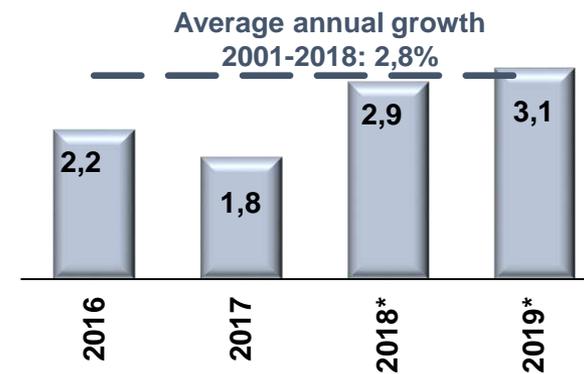

LatAm

Peru

Pacific Alliance Countries ¹

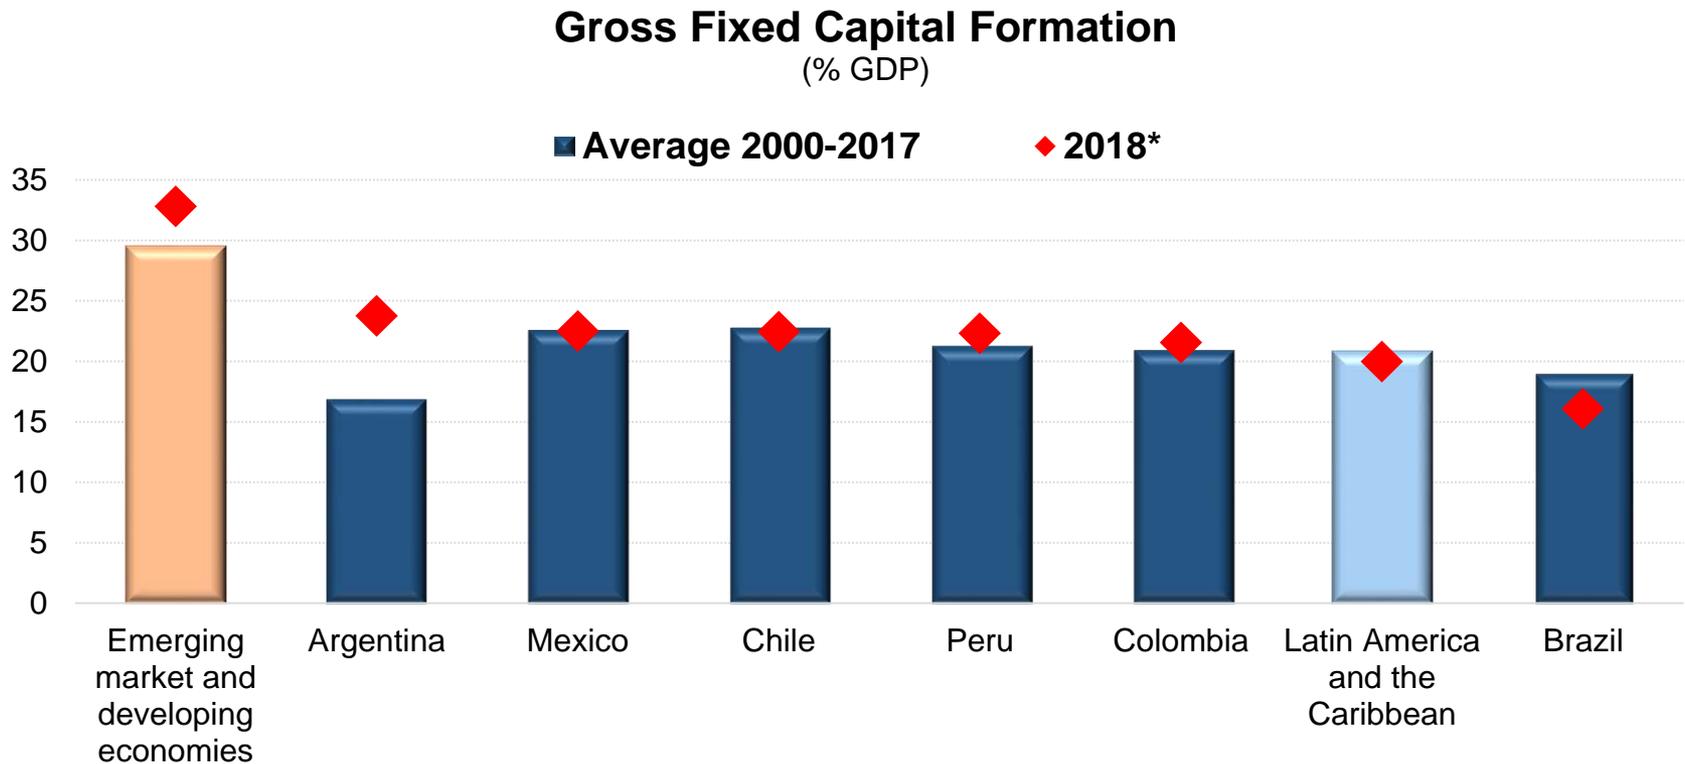

*Forecast.

¹/ Excludes Peru

Source: IMF (WEO, Oct. 2018) and BCRP–Inflation Report (Peru).

Investment in Latin American countries is expected to maintain its average value.

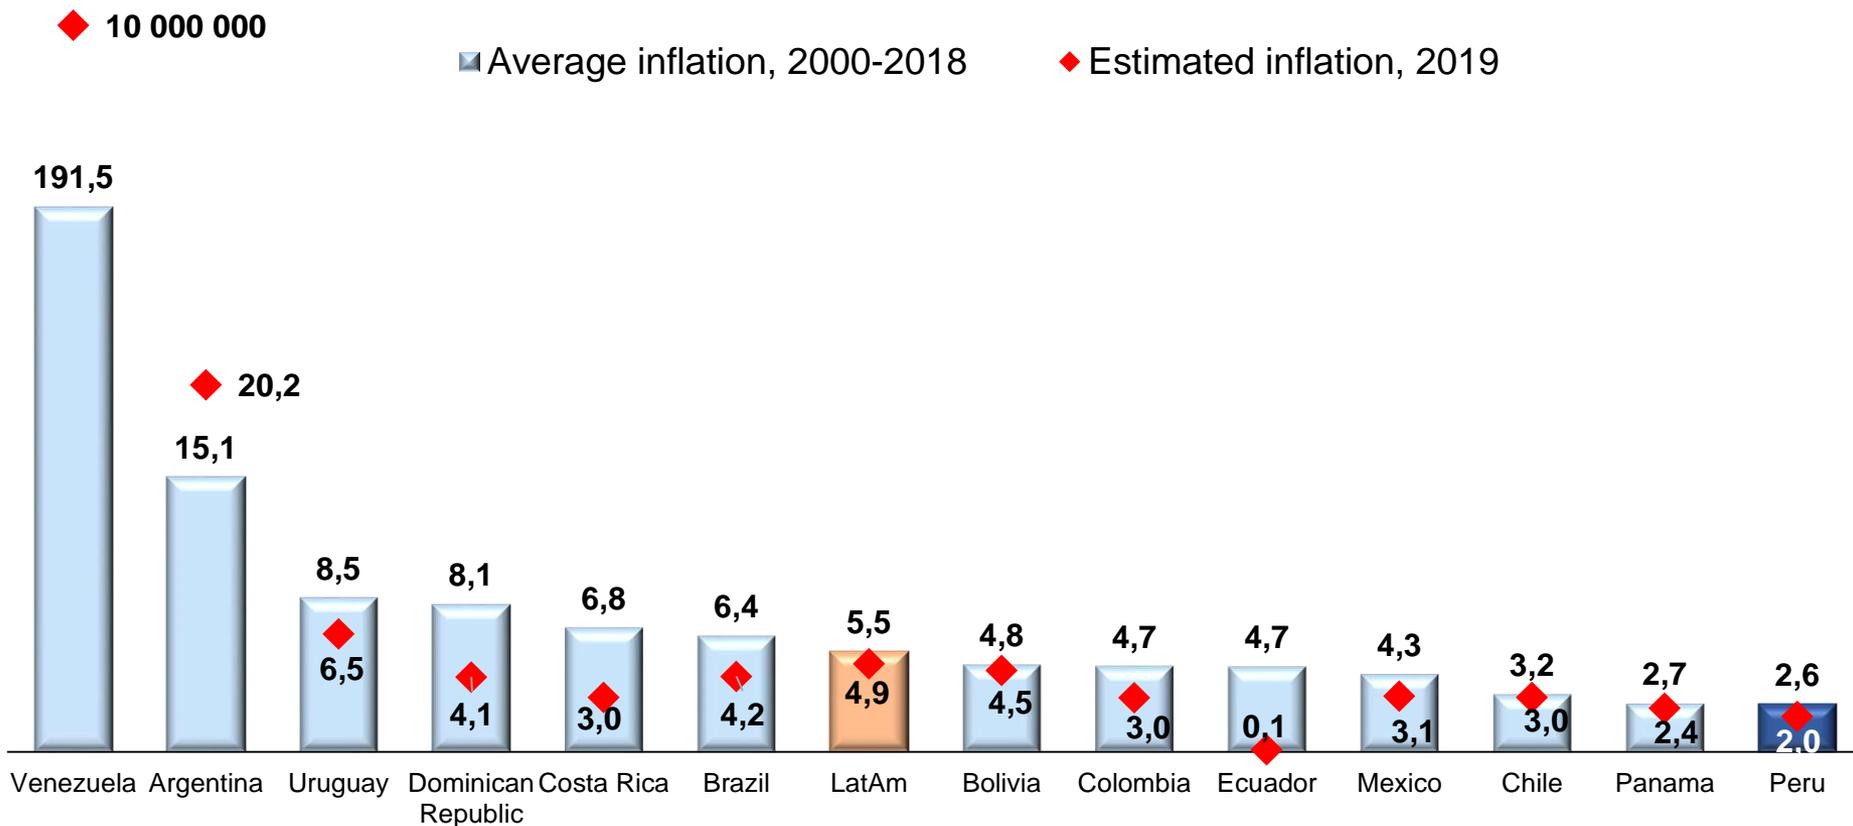

* Forecast

Source: IMF (WEO, October 2018) and BCRP–Inflation Report (Peru).

Peru's annual inflation is among the lowest in the region and will converge towards the target center in 2019.

Latin America: 2000-2018 average annual inflation* and estimated 2019 inflation

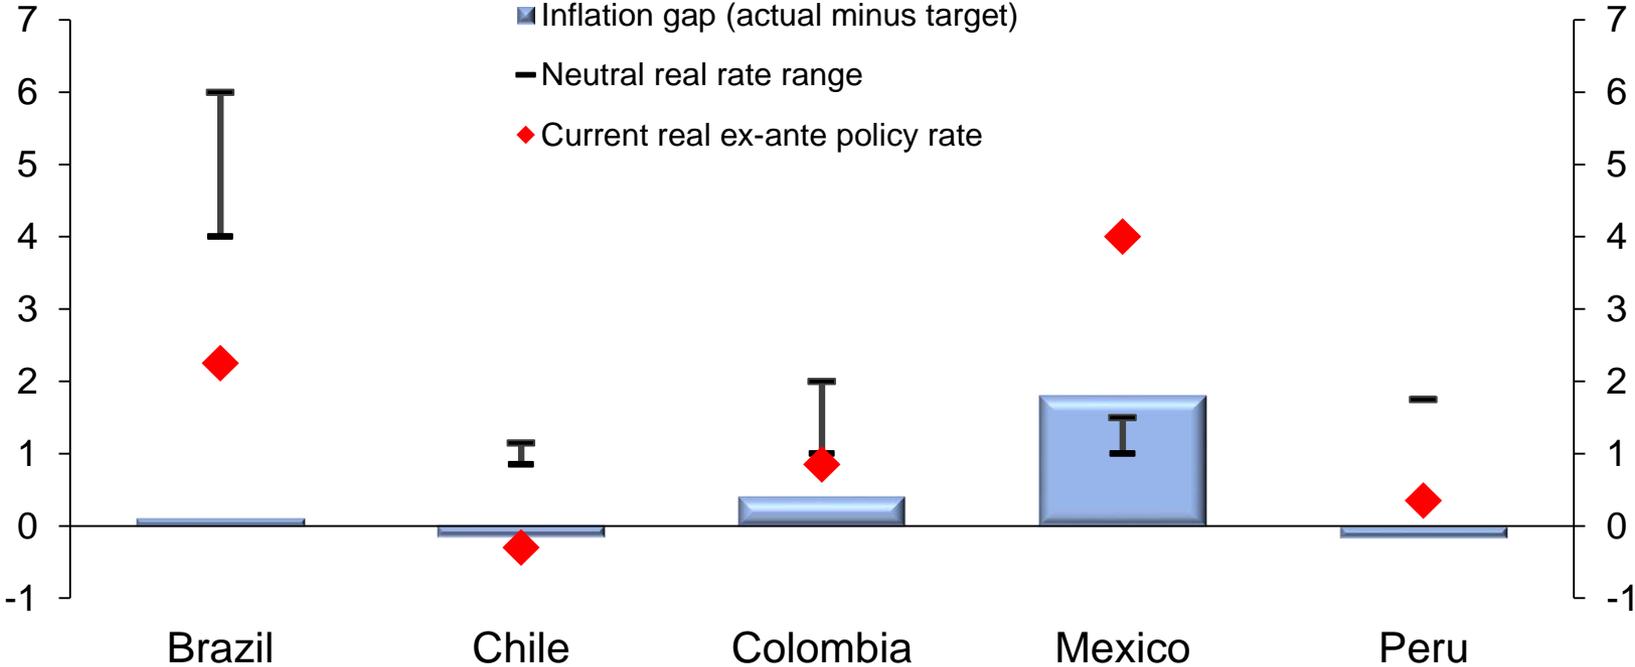

* End of period inflation.

Next year, Latam-5 central banks may begin with the withdrawal of the monetary stimulus

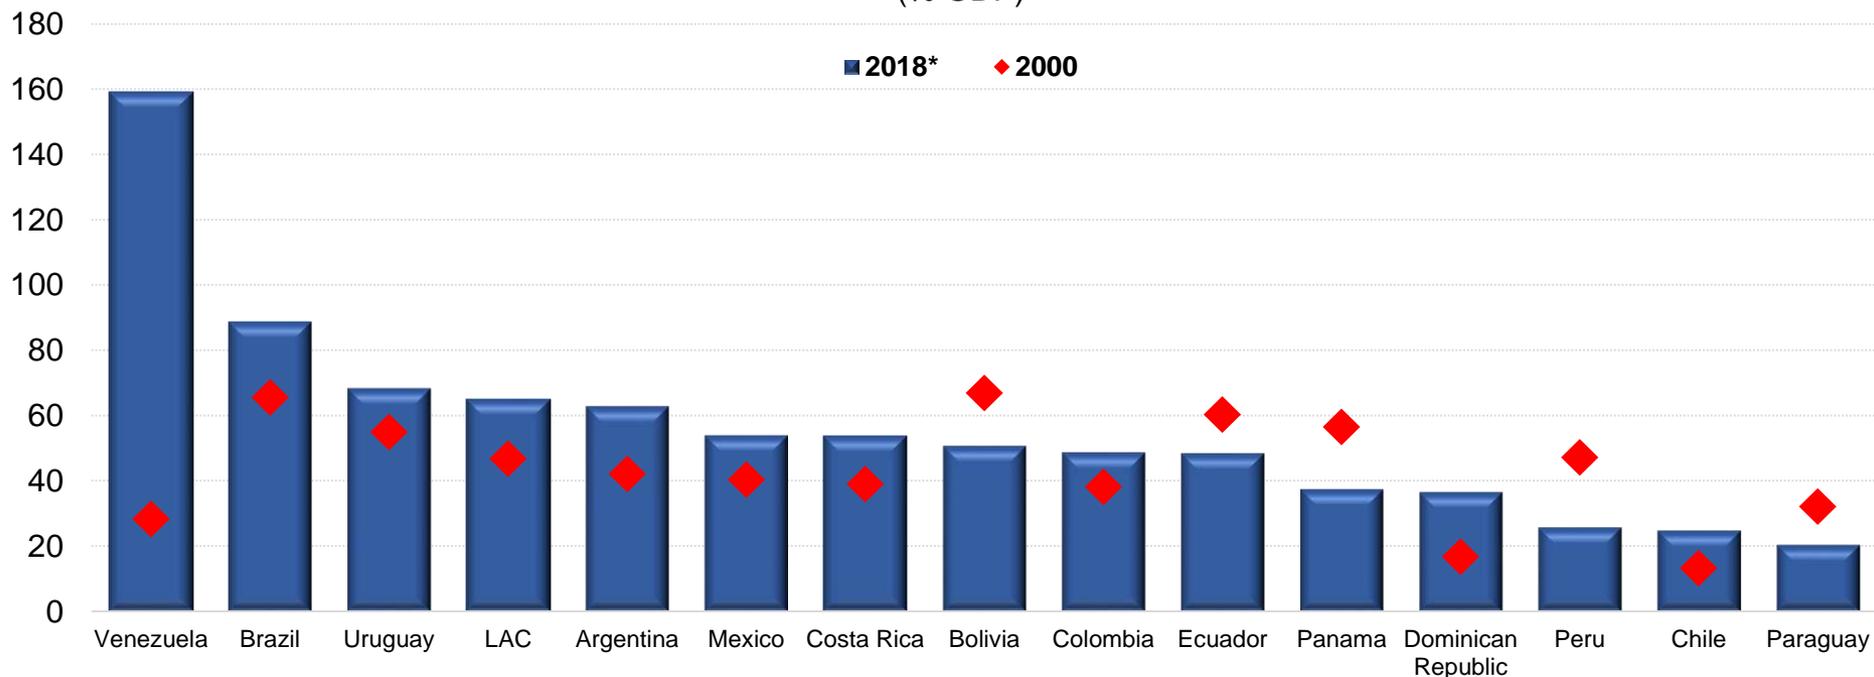

Monetary conditions: inflation gap, neutral interest rate and policy rate

Source: Goldman Sachs and BCRP (Peru).

A group of Latin American countries has promoted government debt reduction in the last 20 years. The other group should reduce its debt in order to achieve fiscal consolidation.

General Government Gross Debt (% GDP)

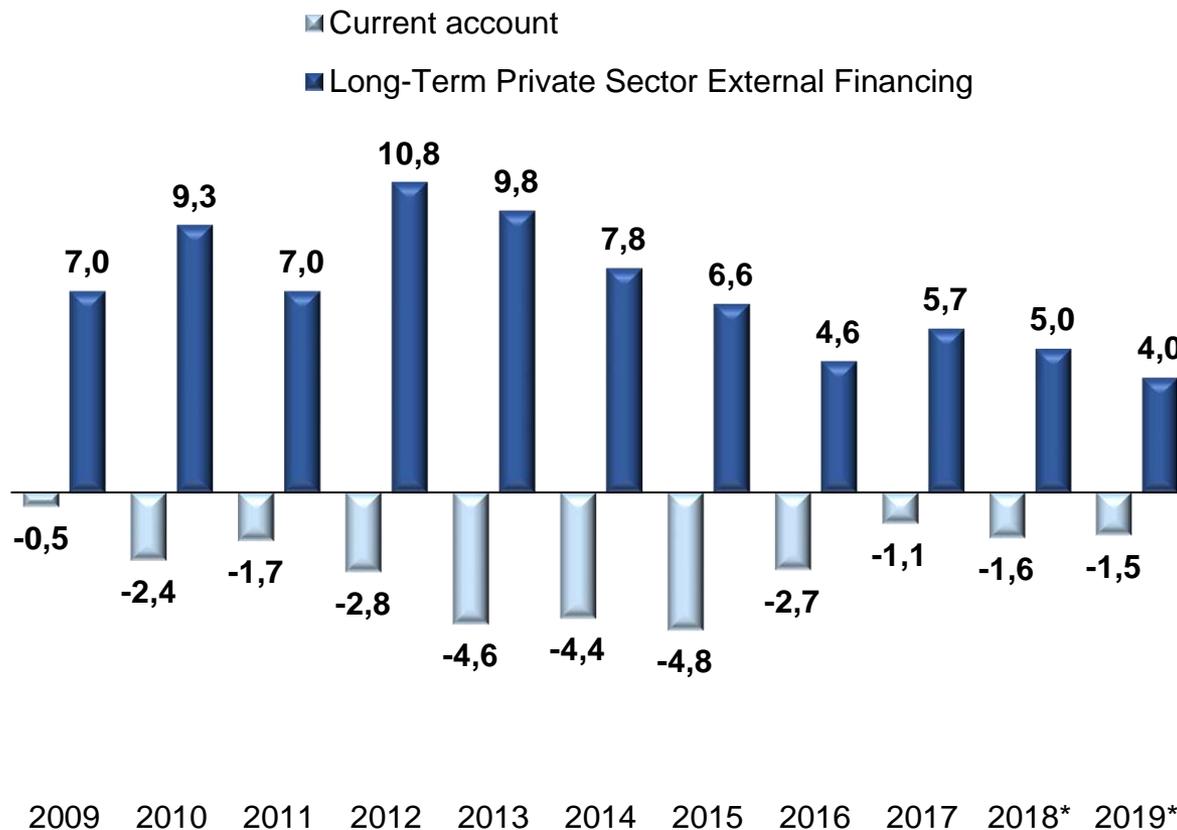

* Forecast

Source: IMF (WEO, October 2018) and BCRP–Inflation Report (Peru).

The current account deficit is expected to remain at sustainable levels (and among the lowest in the region), and will continue to be covered mostly by long-term private sector external financing.

CURRENT ACCOUNT AND LONG-TERM PRIVATE SECTOR EXTERNAL FINANCING^{1/} (% GDP)

% GDP	Current Account Balance		
	2017	2018*	2019*
Argentina	-4,9	-3,7	-3,2
Chile	-1,5	-2,5	-2,7
Colombia	-3,3	-2,4	-2,4
Brazil	-0,5	-1,3	-1,6
Peru	-1,1	-1,6	-1,5
Mexico	-1,7	-1,3	-1,3

* Forecast
 Source: IMF (WEO, October 2018) and BCRP (Peru).

1/ Includes net foreign investment, portfolio investment, and private sector long-term disbursements.

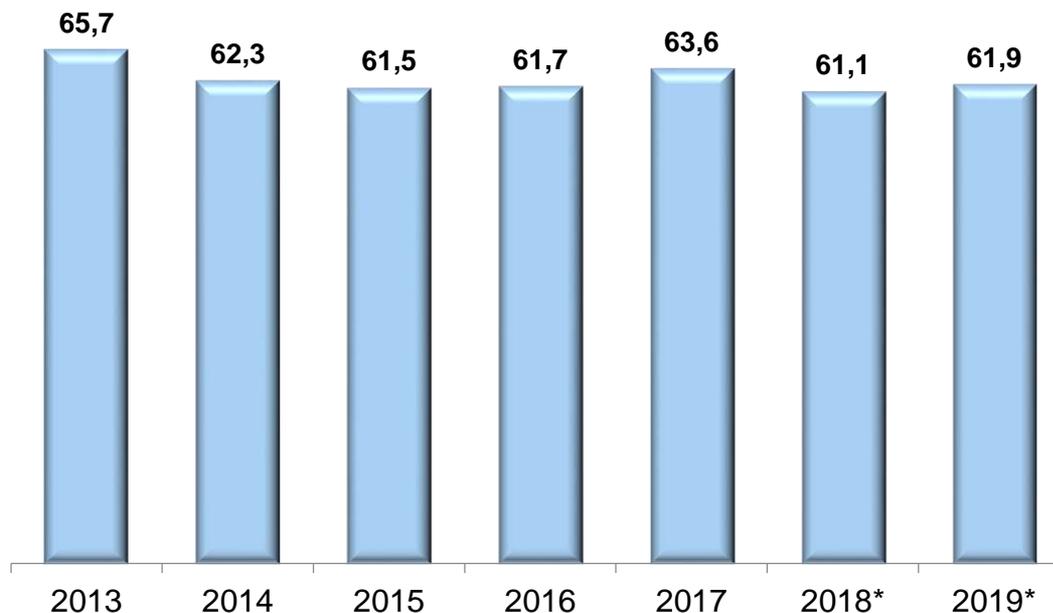

* Forecast.
 Source: BCRP – Inflation Report.

Peru's international reserves will be around 26 percent of GDP and will represent 4 times the short-term external debt.

INTERNATIONAL COVERAGE INDICATORS	2013	2014	2015	2016	2017	2018*	2019*
<u>NIR as a % of:</u>							
a. GDP	32,5	30,8	32,1	31,7	29,7	26,9	26,2
b. Short-term external debt ^{1/}	572	550	460	316	453	397	445
c. Short-term external debt plus current account deficit	315	308	273	249	386	322	356

1/ Includes short-term debt balance plus redemption (1-year) of private and public sector.

Net International Reserves
(US\$ billons)
